

Vaibhavi Kharpuriya

■ 9373289372 ✉ vaibhavikharpuriya@gmail.com ■ India - 441302

PROFILE

Data Engineer with hands-on experience in Python, SQL, Databricks, and PySpark for building scalable ETL pipelines and data processing solutions, data transformation, data integration, and enterprise reporting workflows. Skilled in cloud technologies (AWS) and AI-driven automation, with exposure to Generative AI, LLMs, and Machine Learning.

EXPERTISE

- Data Engineering
- Data Integration
- Databricks, PySpark & SQL
- AI-Powered Automation

EDUCATION

B.Tech Computer Science & Engineering

S. B. Jain Institute of Technology, Management and Research, Nagpur.

May - 2024 | CGPA - 9.0

HSC - High School Education

Dr. Ambedkar College, 2020 — 83.23%

SSC - Secondary School Education

Mount Carmel Convent School, 2018 — 80%

SKILLS

Programming: Python, SQL, Java, JavaScript

Data Engineering: Databricks, PySpark, ETL, Delta Lake, Lakehouse Architecture

Cloud: AWS, AWS S3

Databases: SQL, PL/SQL, MongoDB

AI & ML: LLMs, RAG, Prompt Engineering, Machine Learning, Data Visualization

DevOps: Azure DevOps, Terraform, Git, CI/CD

Integration: REST APIs, Workato, PostgreSQL

Analytics: Power BI, Pandas, NumPy

INDUSTRY EXPERIENCE

- Logistics & Supply Chain
- Retail & Distribution
- Trading & Analytics
- AI Automation & Intelligent Systems
- Enterprise Data Platforms

LinkedIn: [linkedin.com/in/vaibhavi-k-035a63219](https://www.linkedin.com/in/vaibhavi-k-035a63219)

GitHub: github.com/vaibhavikharpuriya25-art

ORGANIZATIONS

NSS, Volunteer (Nagpur, India)

Trained children how to use MS Word, Excel, PPT.

EXPERIENCE

TCS (Tata Consultancy Services) | Software | IT | Mumbai Present

System Engineer

- Automated critical L1 operational tasks through AI Agents and LLMs.
- Enabled intelligent monitoring, alert analysis, and incident response across enterprise environments.
- Supported scalable AI and automation solutions in enterprise environments.

Key Skills: Python, RAG, LLMs, ChromaDB, Vector Embeddings, REST APIs, GPU, Automation

Persistent System Ltd. | IT / Computers - Software | Pune August 2023 (2 Months)

Martian Program Internship

- Built expertise in Python, Machine Learning, Linux, and DBMS through hands-on projects.
- Applied problem-solving and software engineering best practices in real-world scenarios.

Key Skills: Linux, DBMS, DSA, Python, Machine Learning, PyTorch

Data Engineer April 2024 – June 2025

- Developed scalable ETL pipelines using Azure Data Factory, Azure Databricks, PySpark, and SQL.
- Built API-driven ingestion pipelines integrating logistics platform data into Azure Data Lake.
- Optimized SQL queries and Spark transformations to improve execution performance.
- Developed Power BI dashboards supporting operational reporting and business analytics.
- Automated workflow scheduling and monitoring to improve production reliability.
- Worked closely with logistics stakeholders to support enterprise reporting and analytics.

Key Skills: Python, SQL, PySpark, Databricks, ETL, Data Engineering, Data Integration, Power BI

PROJECTS

AI Infrastructure Monitoring Agent | Python, LangGraph, LLMs, RAG

- Built an agentic AI system for infrastructure monitoring and alert analysis.
- Automated incident triaging and remediation recommendations using AI agents.

Technologies Used: Python, LangGraph, LLMs, RAG, ChromaDB, Vector Embeddings, Docker, Kubernetes, SQL

Enterprise Logistics Data Platform

- Built scalable Azure Databricks ETL pipelines integrating REST APIs and PostgreSQL.
- Automated infrastructure deployment using Terraform.
- Improved reporting latency through optimized Spark processing.

Enterprise Retail & ERP Data Platform

- Designed modular ETL framework using Azure Databricks and Delta Lake.
- Supported enterprise migration towards Microsoft Synapse Link.

Enterprise Trading Analytics Platform

- Developed Power BI dashboards for trading insights.
- Improved reporting performance through optimized data models.

AI-Powered Operations Automation | Python, LLMs, RAG
